

"We are progressing with over 50 students a year completing the Certificate in Team Leading.

This programme offers them a different perspective of how they look at themselves and relate to others as they move into the next stage of their lives.

As preparation for students' early contacts with business environments, it is excellent"

Maureen Hill, Assistant Headteacher, Watford Grammar School for Boys

From the Watford Grammar School for Boys website:

At Watford Grammar School for Boys we are committed to continue to develop generations of young men who, when they leave school, are fully rounded individuals with a host of skills and experiences that equip them for the many opportunities and challenges they will face in life.
