

There are two reasons for The Academy wanting to work with the Studyflex team. Firstly, being able to offer our students nationally recognised management qualifications approved by the Chartered Management Institute, was a real incentive.

Secondly, right from our initial meeting we were hugely impressed with the professional approach and genuine interest in our students shown by Peter and his team.

We decided to deliver the Level 2 Introductory certificate over two days to our year 10 students. The students relished the opportunity to take part in a business conference, the range of hands on activities mixed with theory delivered by enthusiastic professional staff and excellent resources from Studyflex proved to be extremely successful.

Next year we intend to maximise this fantastic opportunity for our students by working with Studyflex to deliver the full level 2 Diploma as part of our core curriculum in Key Stage 4.
